

A Brief report about the school Bidya Bhavan Berhampur, Code-OR082

It was a historical day of 4th Sep of 1978 marking the end of desire, this illuminated educational institution was started.

I feel the then to take an intellectual leadership which will be the hallmarks of the true education. The spontaneity command admiration which helps students to come up with good moral and good education among the kids in English Medium which is now a leading school.

It gives the impressive and spectacular teaching, devotation in a rightful way which gives more strength to overcome flourish students.

If all of us are alive to this unconquable spirit of carrying true leadership to the fulfilment, the students as well as teachers, shall remain glorious even amidst the rack and ruin with which the field where in we stand is littered.
